

### Notice of Placement Change of a Traversing Motor for 2.8t~5t Double Rail Long Lift Type Hoist.

Thank you for selecting a Mitsubishi hoist and related products. This letter is to notify the placement change of a traversing motor for 2.8t~5t Double rail Long lift type hoist.

#### 1. Subject Models

2.8t~5t Double rail Long lift type hoist. (S type , U2 type)

#### 2. Changes

The placement of traversing motor is changed to the same side of the hoisting motor, and the change makes the ease of maintenance from the sidewalk for crane inspection.

#### 3. Compatibility

The length between rails and size of traversing rail are not changed.

#### 4. Schedule for Changes

The changes are applied to the products which are ordered from Oct, 2014.

#### 5. Reason for Changes

For improving ease of maintenance.

#### 6. Other

- Please contact us about delivery time.
- To manufacture the old placement type (the model before change) is possible.  
If you need, please contact us.
- Depending on the special specifications, the placement of the traversing motor may be the same as that of old type (the model before change).
