

### Notice of CPU Boards Change

#### (For Use in the Hoisting Inverter of 400V class U2 series 5t and under )

Thank you for selecting a Mitsubishi hoist and related products. This letter is to notify the CPU boards change (for use in hoisting Inverter of 400v class U2 series 5T and under).

#### 1. Changes

Change the CPU boards.

#### 2. Subject Models

①Products : 400V class U2 series 5t and under Inverter hoist.

②Parts : Hoisting CPU boards

#### 3. Schedule for Changes

①Products : The acceptance of order in November 2015, or after.

②Parts : The acceptance of order in January 2016, or after.

(Caution : U series are not changed)

CPU board	Existing Product		Switching Product	
	Part Code	Drawing. No	Part Code	Drawing. No
	03G54S	P148589G01	03G54Y	PY00535G02

#### 4. Reason for Changes

For the improvement of performance and quality.

#### 5. Changes & Cautions

(1) It is possible that to set the frequency per 0.1Hz when the frequency is 10Hz and under.

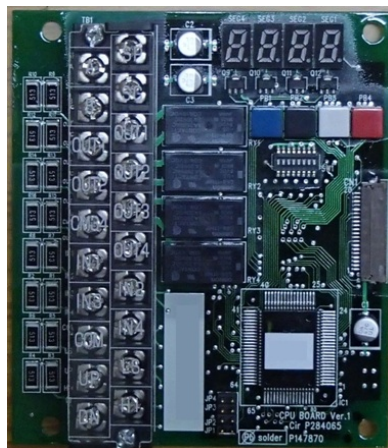

(2) The improved sinusoidal modulus makes low noise.

(3) Switching product is compatible with existing product.

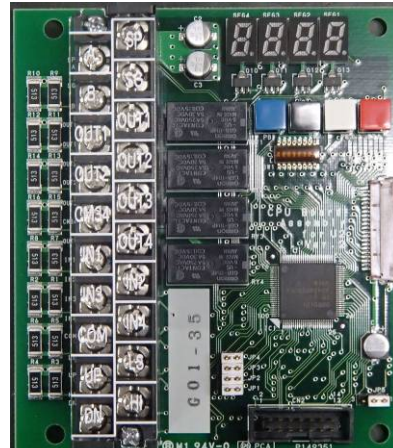

(4) **It is impossible that to use for concurrent usage existing CPU boards and switching CPU boards for tandem hoist operations. (There is a possibility to tilt the load)**

(5) Refer to the Instruction Manual about details and setting of additional functions.
