

Notice of Change in Drum for R and UR Type

We highly appreciate for your continuous sales support on Mitsubishi Hoist and related items. This time, we would like to make an announcement for change in drum for R and UR type.

1. Changes

Change in drum's groove surface finish for R and UR type.

2. Subject models

R, UR type hoist

	Capacity	Lift	Type
①	1t	High (H)	Suspended mounted Type (K) / Monorail Type (M)
②		Low (L)	
③	3t		Low-head Type (D)
④			Double rail Type (R)

3. Reason for change

Change has been made to improve quality and yield by switching to rope groove machining.

4. Schedule for changes

August 2019 (①)

October 2019 (②~④)

After above capacity's stock is digested, parts will be switched sequentially.

5. Changes and notes

Before change	After change
 <p>« Groove surface finish » → Raw Casting (Coating with primer)</p>	 <p>« Groove surface finish » → Machining (Coating with long-term rust-preventive oil)</p>

As mentioned above, change will be made on groove surface finish accordingly.

There is no change in external dimensions.

6. Others

New and old drums are compatible.

For service parts, there is no change in part code.

No change is made for hoist outline (External dimensions and CAD data) on the website.
