Notice of change in auxiliary cable armor for push-button switch

We highly appreciate for your continuous sales support on Mitsubishi Hoist and related items. This time, we would like to make an announcement for change in auxiliary cable armor for push-button switch.

1. Changed content
The shape of auxiliary cable armor for the push-button switch will be changed accordingly.
2. Subject models
All hoist models (Including service parts)
3. Reason for change
Change has been made due to parts manufacturer's convenience.
(Aging of the mold and armor consolidation)
4. Schedule for change
Changes will be made sequentially from the production in August 2019.
5. Changes

| Push-Button Switch Outline | Auxiliary Cable Armor | |
|---|---|--|
| | Before Change | After Change |
|  |  Model: HA type Material: Synthetic rubber Thickness: Approximately 2mm |  Mode: HAI type Material: Silicone rubber Thickness: Approximately 1mm |

The changed auxiliary cable armor has been adopted and used in outdoor specifications.
