

Notice of change in ground roller assembly for urethane saddle

We highly appreciate for your continuous sales support on Mitsubishi Hoist and related items. This time, we would like to make an announcement for change in ground roller assembly for urethane saddle as follows.

1. Changed contents

Change in brush part of ground roller assembly for urethane saddle.

2. Subject models

ST-U saddle series

3. Reason for changes

Due to change in brush supplier.

4. Schedule for changes

Products : Change will be made production from May 2020.

Depending on stock condition, time of brush part change may vary by models.

When receiving more than one unit purchase, old and new type saddle may be mixed accordingly.

Service parts : Change will be made after stock runs out.

Due to its compatibility, the ground roller assembly, part code (03N13W) is remain unchanged for after change has been made.

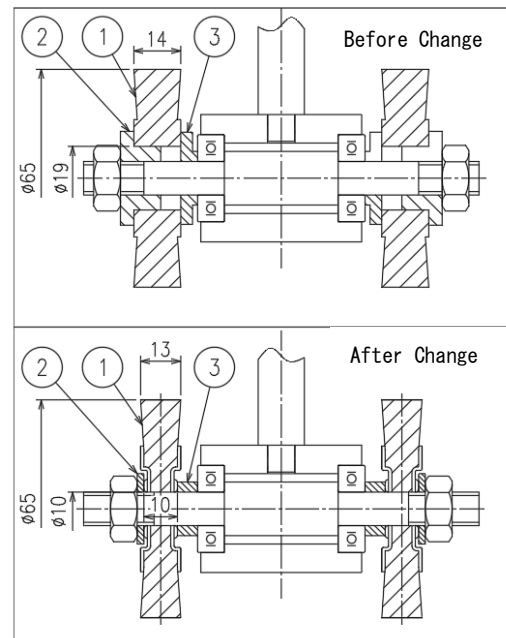

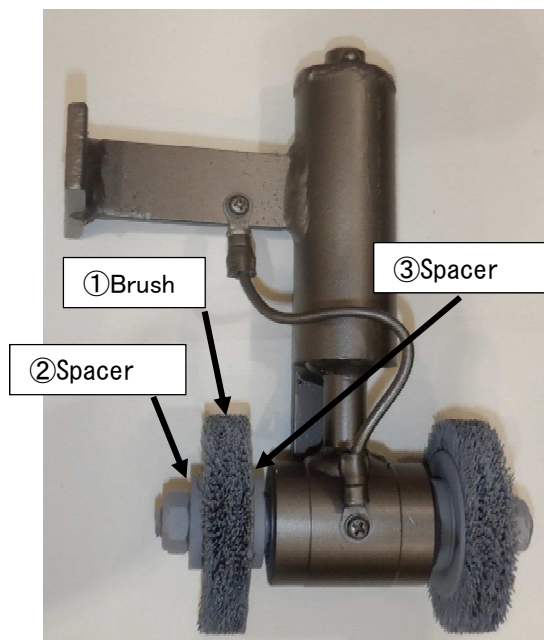

※Brush is not sold as single item.

5. Changed contents

The changes are detailed below.

The shape of the spacer will be changed according to change in brush dimensions.

No mounting compatibility is available for brush part when before and after following changes have been made.
