

Notice for discontinuation of Inverter Board for 400V class UR type hoist production

We highly appreciate for your continuous sales support on Mitsubishi Hoist and related items. This time, we would like to make an announcement of discontinuation of Inverter board for 400V class UR type hoist production. We apologize for the delayed announcement.

1. Subject models
400V class UR type all models
2. Subject part
Inverter board for hoisting
3. Part code
03G52A (Control voltage 200V)、
※There are no parts codes for the control voltage of 100V, 48V, 24V, because they are specially arranged specifications.
4. Reason for discontinuation
Although the production of the subject models was discontinued in 2019 and only their service parts supply was continued, we become unable to supply the subject part (Inverter board for hoisting) due to the recent unavailability of electric components. However, we will continue to supply other service parts. (Inverter board for traversing and contactors and so forth)
5. Request
We would appreciate it if customers who request the subject part and are using the subject models would consider to replace UR type for U3 type.

We sincerely apologize for causing the inconvenience.
We appreciate for your loyalty. We hope that you give us the privilege of continuing to serve you in the future.
