

## Notice for change in CPU board (U-X type)

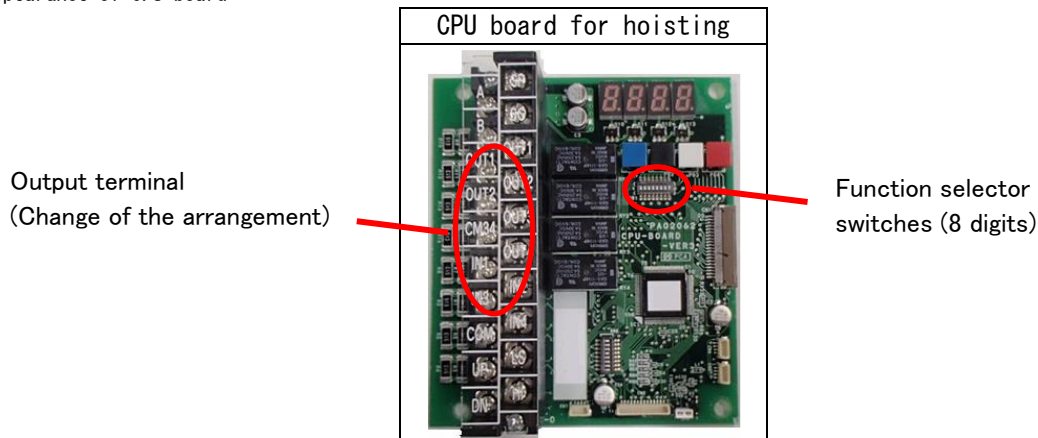

We highly appreciate for your continuous sales support on Mitsubishi Hoist and related items. This time, we would like to make an announcement of change in CPU board.

1. Changed contents  
Change in CPU board(Hoisting) for U-X type
2. Subject models  
①Product : U-X type(Explosion-proof type) All models  
②Part : U-X type(Explosion-proof type) CPU board for Hoisting
3. Subject models and Schedule for changes  
①Product : Change will be made from the production of September 2022  
②Part : (as above)
4. Reasons for changes  
Replacement for the production stoppage of electric parts
5. Changed points and Points to be noted
  - (1) The arrangement of output terminal is changed  
The change of wiring is necessary When replacing the CPU board.  
Please refer to the instruction manual for details.
  - (2) The Function selector switches are changed from 4 digits to 8 digits.  
In the case of Hoist products, the Function selector switches are set at the time of shipment from the factory. However, it is necessary to set the Function selector switches when replacing the CPU board. Regarding setting method, please refer to the instruction manual. The hoist may be unable to be operated if the Function selector switches are not correctly set.
  - (3) The setting range of operation frequency is changed.

	Before change	After change
Frequency of low hoisting speed	9~30Hz	9~60Hz
Frequency of low lowering speed	Less than 3t : 6~20Hz 5t or more : 6~ 9Hz	6~9Hz

- (4) There is no change in operation and mounting dimensions.

### 6. Appearance of CPU board
